## Four Crewmen Missing After Air Collision

Two B47 Stratojet Bombers Collide Over Gulf of Mexico

LAKE CHARLES, La. (AP)—Hope for survival diminished today for four airmen missing after two B47 Stratojets collided at 15,000 feet over the Gulf of Mexico.

A giant armada of planes and ships, which converged on the area 30 miles off the coastal town of Cameron, La., after the crash Wednesday night, failed to uncover any trace of the missing airmen.

One of the Stratojets crashed into the water and burned, while the other limped back to the Lake Charles Air Force Base here. One crewman of the damaged plane bailed out after the collision. Three airmen were in the Stratojet that crashed.

"The visibility is good out in the Gulf, but so far there has been no sight of survivors," an Air Force spokesman said. "However, we have not given up hope. There is a possibility that the man who bailed out could have come down to the coastal marshland."

Earlier an Air Force flier believed there was a good chance of survival for the four crewmen. Capt. John Nolas of the 44th Air Refueling Squadron said he was flying in a formation of four tanker aircraft when he heard a radio report of the collision and then looked down and saw the crashed plane.

"It was burning furiously," he said. He said the plane "was fully equipped with survivor's equipment and there is a good chance that crew members are surviving."

Parcels Picked Up  
Bits of wreckage were sighted and several parcels, believed from the crashed plane, were picked up. The parcels were marked "Restricted."

Missing in the downed plane were Maj. Jean S. Pierson of Danville, Ind., aircraft commander; Capt. David O. Crump of Alton, N. C., co-pilot; and 1st Lt. Rodney P. Egelston of Levelland, Tex., observer-bombardier.

The missing crewmember of the second plane was 1st Lt. Matthew Gemery of Lakewood, Ohio, observer-bombardier.

His two companions who survived were identified as Maj. Sterling P. Carroll, pilot, and Capt. Morris E. Shiver, co-pilot. Their home addresses were not immediately available.

## Two U. S. Jets Collide Over Tokyo

TOKYO (AP)—Two U. S. Air Force jets apparently collided in flight within sight of downtown Tokyo tonight with a tremendous explosion heard throughout the city.

The Far East Air Force would not confirm the crash, but said that a T33 trainer jet and F86 fighter jet were missing in the Tokyo area.

An explosion rocked the city at about 9:30 p. m. Tokyo time and "fireballs" were reported seen dropping into Tokyo Bay.

## Three American Airmen Injured

LONDON (AP)—Three American airmen were injured, one seriously, when a four-engine Air Force transport plane caught fire today while parked at suburban Northolt Airport.

The Air Force announced the two men who were not seriously hurt are Airmen 2c, Paul E. Bersusky, 20, Loft Creek, Pa., and Airmen 2c, Joseph P. Perring, 20, Owen, W. Va.

The name of the seriously injured airman was withheld until his family is notified.

## U. S. Plane Missing In Mediterranean

LONDON (AP)—A carrier-based American Navy plane believed to be carrying two men was missing today and presumed lost in the Mediterranean along the coast of northern Spain or southern France.

A United States spokesman said the Douglas attack plane from the carrier Randolph was last heard from at 1:15 p. m. Wednesday.

## School Burns Down and Pupils Go to Church

PRINCIPAL FRED J. ARMISTEAD addresses eighth grade students at Presbyterian church, where student body met this morning for first time since Junior high school building burned. Principal Armistead told group there would be inconveniences but that pupils got together for classes in bombed-out building of Europe and that if they could do this, the Harrisburg students should get along fine during the emergency.

FIRST ACTIVITY OF DAY was showing of movies. Here Stobart Abney, faculty member, surrounded by students, prepares projection machine. All eighth graders met this morning at Presbyterian church but one section was sent to Christian church, one to McKinley school.

BOOKS AND SUPPLIES FOR PUPILS arrived last night and above are shown faculty members assorting them for the first classes. In foreground are J. A. Dillon and Barbara Thompson. (Daily Register Staff Photos)

## Eighth Graders Meet at Presbyterian Church for First Classes of New Year

Students, Burned Out At Junior High, Eager To Resume Studies

Children were going to church this morning by the score as eighth grade pupils, burned out of their right quarters at Junior high, met in the Presbyterian church basement for their first classes of the New Year.

The student body was on time and looked eager as the group awaited in the church basement, seated in folding chairs. The boys and girls talked merrily among themselves until Principal Fred Armistead walked to the front. The hall in chatter was abrupt, with Principal Armistead giving neither a signal nor word.

Mr. Armistead explained that a few, but not many, had some textbooks, but that seven long-distance calls had brought in a supply of books, the kind being used before fire destroyed the original Junior high building New Year's morning. The mass of books arrived last night from Chicago.

Addresses Note to Parents  
He also said that after preliminaries, Edward Bell's section would

go to the Christian church basement. Ronald Darnell's section to the music room of McKinley school and the remaining four sections of the eighth grade would stay at the Presbyterian church.

He also addressed a note to parents of Junior high students which stated:  
"If your child lost any personal property, such as textbooks not on the rental plan, notebooks, fountain pens, gym shoes and clothing, in the school fire on New Year's Day, and you have household insurance, you may make a claim through your agent up to ten percent of your policy."

"The insurance adjuster has notified the various agents that such claims may be made."

"Any questions you have should be directed to your insurance agent."

Seventh Grade Meets Monday  
In talking to the eighth graders, Mr. Armistead said that in reality the school system would be running two schools now, the eighth grade, with Mr. Armistead the principal, and the seventh grade, with Louie Beltz the principal. The seventh grade will meet Monday morning in the Horace Mann school

auditorium with some of the students to be sent to Logan. Eighth graders will move into the new addition of Junior high just as soon as a heating plant is ready.

"You'll be working under a lot of handicaps," Mr. Armistead told the eighth graders this morning. "There will be problems of drink-

(Continued on Page Seven)

## John E. Kihlhorn, Former Resident, Dies in Portland, Ore.

Harrisburg relatives of John E. Kihlhorn were notified of his sudden death which occurred at his home in Portland, Oregon, Wednesday morning.

Mr. Kihlhorn and his wife who is the former Valleri Mott are former residents of Harrisburg.

He is survived by his widow, two sons and a daughter, all of Portland, and brother Charles Kihlhorn of Harrisburg, and two sisters, Mrs. Bert Tavender, also of Harrisburg, and Mrs. Helen Kershner of Chicago.

Funeral and burial will be in Portland.

## Luxury Liner Rescues 10 in Stormy Seas

Plucks Men from Atlantic Amid 3-Story High Waves

HAMILTON, Bermuda (AP)—The luxury liner Queen of Bermuda rescued all 10 men of the crew of the sinking fishing vessel Student Prince today in stormy seas that piled up waves as high as a three-story building.

The Coast Guard Air Station here confirmed the 10 men who had taken to a life boat had been plucked from the raging Atlantic in seething gale winds that hit a steady 45 miles an hour.

The Queen of Bermuda, on a gay holiday cruise to this famed vacation island, was routed off course when it received word that the 282-ton fishing vessel was breaking up about 200 miles north-northeast of here.

The survivors will be brought here and are expected to arrive sometime Friday.

No Injuries Reported  
Master Harry Thomassen of the Student Prince messaged Bermuda there were no injured among his crew. There was no immediate word as to what extent they were suffering from exposure.

The men abandoned their ship late Wednesday and were tossed into the sea from their capsizing life boat shortly before the rescue liner reached them. The Queen reported the rescue completed at 10:15 a. m.

The Student Prince was out of St. John's, Nfld. All crew members were listed as residents of Grand Bank and Lord's Cove, Nfld.

The fishing vessel first messaged only for help. Master Harry Thomassen said the ship had sprung a leak, that all hands had been ordered to the pumps, and that he hoped to be able to reach Bermuda.

Begins to Crack Up  
A few hours later, however, the foundering ship messaged that its engine room was flooded, the ship was starting to crack and the crew was taking to the life boat.

The Coast Guard cutter Bibb, escorting another disabled vessel toward Bermuda, and the Queen of Bermuda, diverted at top speed toward the stricken fishing ship as Coast Guard planes put out from Bermuda for her position.

The Bibb was returned to its former duty because the cruise ship was closer.

The foundering vessel and its storm-tossed life boat were sighted by planes, which maintained a watch over the drifting crew during the night.

## Sister of Mrs. Everett Brown Dies

Mrs. Isa Craig, 74, sister of Mrs. Everett Brown of this city, died yesterday at 6 p. m. at her home in Evansville, Ind., following a long illness.

Also surviving are a son, K. E. Craig, a monument dealer in Evansville; two nieces, Mrs. Lloyd Branum, and Mrs. Agnes Travelstead, both of Harrisburg, and three nephews, Howard Peyton, East Chicago, Ind., Bud Peyton of Galatia, and James Peyton, Brushy.

A sister, Mrs. Hettie Peyton, preceded her in death several years ago.

The body is now at the Kriekhaus funeral home in Evansville where the funeral will be held Saturday at 2 p. m.

## Issue Three Oil Drilling Permits

Three permits for oil drilling in Eldorado township were issued at Springfield as follows:

1. W. C. McBride Inc., Centralia, for the Harry Flanders No. 1, NW quarter of the SE quarter of the SE quarter of Section 10, 8S-7E.

2. W. C. McBride for the Guido Boscarine No. 1, SE corner of the NW quarter of the SE quarter of Section 10, 8S-7E.

3. John Stelle Associates, Eldorado, for the Claud Brown et al Communitized Unit No. 3, SW corner of the SE quarter of the NW quarter of Section 20, 8S-7E.

## Graveside Service For Stillborn Infant

Graveside services were held today at 2 p. m. at the Wolf Creek cemetery for the stillborn infant daughter of Mr. and Mrs. Bosco Simich. The baby was born yesterday at 4 p. m. in the Ferrell hospital.

Rev. C. C. Lowe officiated, and Martina, funeral home was in charge.

The baby is survived by a sister, Mary Susanne, its parents and grandparents, Mr. and Mrs. Cvetko Simich of Eldorado and Mr. and Mrs. Troy Weaver of Detroit, Mich.

## Democrats Pledge Program Of Eisenhower Will Receive Consideration

WASHINGTON (AP)—The leadership of the Democratic 84th Congress pledged today that President Eisenhower's 1955 legislative program "will receive reasonable consideration by reasonable men."

The pledge was voiced by Senate Democratic Leader Lyndon B. Johnson (Tex.) after hearing the President's State of the Union message.

It echoed a promise made previously by Speaker Sam Rayburn. Democrats generally complimented the President on his statement of the broad issues confronting the country and the free world. But some of them took mild issue with him on specific subjects.

Republicans for the most part praised the message without stint. Senate Republican Leader William F. Knowland (Calif.) said the message "outlines a constructive program of domestic legislation" and pledges the United States "to work for the creation and preservation of a free world of free men."

Knowland has no objections. Knowland, who frequently differs with the administration on foreign policy, said "no appeasement or policy of waiting for the dust to settle is contemplated by the message." He said it shows U. S. policy is "peace with honor based on strength."

Johnson made this comment on the message:  
"The President correctly states a Democratic premise when he says that the general good should be our yardstick on every great issue of our time. We will consider his program in that spirit."

"The President's various recommendations will receive reasonable consideration by reasonable men. In some instances, they will be accepted; in others they will be rejected; and in still others, they will be substitutes."

"But the attitude of the Democratic Party will be in keeping with his call to subordinate partisanship, pride, and prejudice to the nation's welfare."

House Republican Leader Joseph W. Martin Jr. (Mass.) said the

## Two Local Youths Are Indicted in Gallatin County

Gallatin County State's Attorney Charles Phillips revealed today that a circuit court grand jury at Shawneetown this week indicted two Harrisburg youths on eight counts that included armed robbery, aggravated assault and battery and assault with intent to kill.

The youths are John Paul Winters and Robert Reeder, who were arrested following the Aug. 10 robbery and beating of an attendant at the Bailey Miller service station at Routes 13 and 142 near Equality.

Cletis Butler, the attendant, was asked by two youths to put a quart of oil in the car when they drove up to the station and when he leaned over to do so, he was hit across the head with a piece of pipe.

He was able to scuffle with the youths, however, but they escaped with an amount of money. Butler, though, was able to get the license number of the car and this led to the arrest of the boys.

Arrested here, they admitted the incident to local officers. They had \$63.60 in their possession when arrested.

Defense officials said today those were the actual new goals, arrived at in new studies at the 11th hour before sending the new defense budget to Congress.

Only on Dec. 20, Wilson told a news conference that "a decision has been reached" to cut to 2,940,000 by next June 30 and 2,815,000 in the following 12 months. That would have meant an overall cut in present strength of 403,000 by mid-1956.

## Revenue Office Sets Days to Assist Taxpayers Prepare Returns

The Internal Revenue Service office in Harrisburg will be open to assist taxpayers in preparing their returns on 1954 income Jan. 17 to 31 and April 4 to 15, including Saturday, Jan. 29, and Saturday, April 9, it was announced today from the district office at Springfield.

The office hours will be 8 a. m. to 5 p. m. except that from April 4 to 14 the office will remain open until 6 p. m. and on April 15, last day for filing, it will close at 8 p. m.

Forms used in preparation of income tax returns, information concerning income taxes, and assistance in preparation of returns may be obtained by taxpayers at the local office, which is situated on the main floor of the Harrisburg city hall.

No Business Schedules  
In order to render the maximum assistance to the greatest number of taxpayers, priority will be given to those taxpayers who need assistance or advice to clarify or explain points not understood. The expected volume of calls for assistance and the limited personnel available will make it impracticable to prepare business schedules (Forms 1040-F and Schedules C) or returns of individuals with substantial amounts of income. Taxpayers are requested to prepare such business or farm schedules before coming to the Internal Revenue office for assistance.

A farmer is required either to file a declaration of estimated tax, Form 1040-ES, for the year 1954 on or before Jan. 17, 1955, and pay the tax disclosed thereon or (2) he may file his complete income tax return, Form 1040, for the year 1954 on or before Jan. 31, 1955, and pay the tax disclosed on the return.

Employers are urged to issue Withholding Tax Statements (Form W-2) to employees as soon as possible after the close of the year in income tax returns promptly.

File Amended Declarations  
Taxpayers required to file declarations of estimated tax (Form 1040-ES) for the year 1954 are urged to review their declarations of estimated tax for 1954 and if necessary file an amended declaration and pay any amount due thereon on or before Jan. 15, 1955.

In the past, many taxpayers eligible to file Form 1040-A have filed Form 1040 instead. All taxpayers eligible to do so are urged to file Form 1040-A if no particular advantage will accrue to them through the use of Form 1040.

All taxpayers are requested to enter their Social Security numbers on their returns regardless of whether or not their wages were subject to Social Security taxes. This information will facilitate the processing of their returns by the Internal Revenue Service.

## President Says Economy is Good, Getting Better

State of Union Message Delivered At Joint Session

WASHINGTON (AP)—President Eisenhower appealed to the new Democratic Congress today to cooperate with him lest the "paralyzing indecision" of divided government interrupt America's "heartening progress" toward peace and prosperity.

His plea for "good will and harmony," on domestic legislation as well as in the traditionally bipartisan fields of defense and foreign policy, was the keynote of a generally optimistic State of the Union message outlining his 1955 program.

Mr. Eisenhower told a joint session of the House and Senate that the condition of the U. S. economy is good and getting better. He was "hopeful of continuing progress" toward durable peace, but admitted that the current international situation is "merely world stalemate."

The only major surprise in his 6,400-word message was a request for prompt federal action to relieve an "unprecedented classroom shortage" in the nation's schools. He promised to submit detailed recommendations to Congress next month.

Other proposals disclosed, most of which were disclosed previously, included extension of the draft, lower tariffs, higher postal rates, postponement of new tax cuts until next year at least, a big highway building program, pay raises for federal workers and servicemen, improved drought aid for farmers, and an increase in the minimum wage from 75 to 90 cents an hour.

On the negative side, Mr. Eisenhower warned Congress against any attempt to scrap the flexible farm price support law enacted last year. Farm state congressmen are eager to return to rigid high supports.

He also anticipated congressional criticism on another front by announcing that the new military budget which he will present later this month represents his "personal" decision on what is needed for national defense. Democrats already were taking pot-shots at Defense Secretary Charles E. Wilson who announced recently that the budget would call for fairly sharp cuts in Army and Navy manpower while putting increased emphasis on air power and atomic weapons.

Holds Out Olive Branch  
For the most part, however, Mr. Eisenhower held out an olive branch to the opposition party

(Continued on Page Six)

## Believe Stalin's Son is Dead

WASHINGTON (AP)—There is strong evidence that Josef Stalin's hard-drinking son, Vasily, was swept up in the same purge that cost Russian police chief Lavrenti P. Beria his life. Vasily, too, may be dead.

Young Stalin's fate has been a matter of lively speculation here and in other free world capitals ever since his last public appearance on March 9, 1953, when he was a pallbearer at his father's funeral.

Funeral pictures showed Vasily, then about 32, as part of a double line of Soviet big-wigs who carried the dead dictator's casket. He walked just a pace behind Georgi Malenkov, who headed one line. Beria, who was shot before the end of 1953, headed the other line of coffin bearers.

American agencies were said to have no confirmation of Vienna, Austria, reports that young Stalin had died recently in a Siberian prison camp. These same reports said that his sister, Svetlana, had been banished from Moscow by Malenkov and his new Red regime.

But experts would not be surprised in the least if Stalin the younger met with foul play soon after his father's body was deposited in Moscow's Red Square.

Stalin was a lieutenant general of aviation when his father died on March 5, 1953. He had a reputation for being vain, loiterous, heavy drinking and a boisterous of sorts.

Beria was known to have been a close friend of Stalin's son, just as he was the eldest Stalin's henchman and confidant.

#### Stratton Names Branson to State Parole Board

SPRINGFIELD (AP)—Gov. William G. Stratton Wednesday appointed former State Rep. Robert J. Branson to the Illinois Parole and Pardon Board.

Branson, a Centralia Republican, succeeds the late Rev. Vernon L. Shontz of Springfield. Branson was defeated in the Republican primary for state treasurer in 1954.

Branson's appointment was included in a batch which Stratton submitted to the state Senate for confirmation. He also reappointed

scores of state officials, including his entire cabinet.

New appointments in addition to Branson's included:

Louis Howard, University of Illinois agriculture dean, to the board of state fair advisors.

Paul E. Mathias, Hinsdale, to the advisory board of livestock commissioners.

Robert C. Cooper, Olney, to the oil and gas board.

Philmore E. Iskovich, DeKalb as a public administrator.

#### 'Three C's' Dominate Styling of Household Appliances at Market

By WILLIAM H. MEYERS  
United Press Staff Correspondent  
CHICAGO (AP)—The "three C's" of color, convenience and cleanliness dominate the styling of household appliances on display today at the winter market of the American Furniture Mart.

Spokesmen for the appliance firms said business at the current show has been exceedingly good and in many cases was far beyond their hopes for the year.

Manufacturers are offering almost every shade to catch the fancy of the housewife and her decorator genius.

Some manufacturers, in fact, even offer to make up their appliances in special colors to meet the fancy of the lady.

Kitchen ranges, refrigerators, and freezers are designed to ease the work load of the housewife both in use of the appliances and in keeping them tidy.

**A Disappearing Cover**

For example, O'Keefe and Merritt of Los Angeles are offering their line of gas ranges this year with a "vanishing shelf cover" which covers the burner area when it is not in use, can be accorioned into a position as a convenient shelf, or can be made to "vanish" by folding completely out of the way.

O'Keefe and Merritt also has a new oven device, similar to a periscope, called the "Hi-Vue" by which the cook can look into her oven without stooping over and can literally see her cookies or pies brown to a turn before her eyes.

Al Grewe, central division sales manager for the Gibson Refrigerator Co. of Greenville, Mich., said the Gibson "Market Master" refrigerator is "one of the hottest items at the show."

**New Defrosting Devices**

The "Market Master" is aimed at the home which is already equipped with a separate freezer. Its full 11½ cubic feet of space is devoted to refrigeration for fresh food storage, with no separate freezer locker. Thus, Grewe said, the firm can retail it for \$299.50, which he said is 20 per

#### Longshoremen Accept Contract

NEW YORK (AP)—Two years of labor peace were promised today on New York's turbulent waterfront.

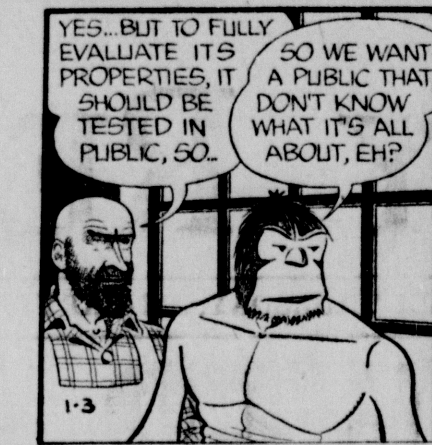

Rank-and-file members of the independent International Longshoremen's Assn. voted nearly three-to-one Wednesday night to accept a two-year contract with shipping companies that includes a no-strike clause.

In return, the agreement guaranteed the I.L.A. a union shop, which means the American Federation of Labor union that tried to replace the I.L.A. last year must stay out of the port for two years.

Besides the no-strike and union-shop clauses, the contract provides a 17-cent-an-hour package increase and guarantees there will be no lock-outs by the company and no work stoppages by the union. Dockworkers now earn \$2.35 an hour.

#### TUBERCULIN TESTING PROGRAMS IN ALL HIGH SCHOOLS IN SALINE COUNTY TO START NEXT MONDAY

Beginning Jan. 10, Tuberculin testing programs in all high schools in Saline county will get under way. All parents of high school boys and girls are urged to read carefully the literature your son or daughter will bring home some time this week on tuberculin testing.

Tuberculosis is a totally unnecessary disease. It can be prevented. It can be cured. Yet, tuberculosis remains a leading cause of death in the age group from 15 to 35—the years for supplying our major manpower needs for the armed forces and industry, the years when young people are preparing for and embarking upon their careers, are building their

homes and raising their families. Tuberculosis kills approximately twice as many men as women. Other groups among whom TB mortality is high are people who receive public assistance or relief i. e., persons of poor economic status and inmates of institutions, particularly mental institutions.

The major purpose of tuberculin testing programs in the high school population are:

1. Case finding.
2. Health education.

In Illinois thousands of these tests are given each year in the schools. Students who react to the tuberculin test should have chest x-rays and a thorough physical examination by their doctor. These tuberculin testing programs as well as a chest x-ray for positive reactors to the test are sponsored by the Health department.

In the high school groups, a freshman may be negative or a non-reactor, but in one of the subsequent years may convert to a reactor. There is a growing impression among experienced chest clinicians that the first two or three years after conversion from

a non-reactor to a reactor is an important period for the individual to be kept under observation, to ascertain whether the infection heals or if it progresses to active disease.

Each year all high school students—now, transfers, or previously enrolled—on tuberculin test, should be included. Previous reactors are not re-tested, unless there is a really valid reason for doing so.

New Salters 'Ready-Filled'

In the foreground of this picture is the newest thing in salt shakers, one that comes with the salt already in it and is tossed away after use. Made by a nationally-known salt company, it has a "dual-purpose" top, with holes for sprinkling salt at the table, and with a handy pouring slot for kitchen use.

Fight The Wild River  
by EDMUNDS CLAUSSEN

THE STORY: Aboard the General Heath as it prepares to go up the Colorado River from Yuma are cases of rifles that may be used to keep Arizona from being captured in the War Between the States. Captain Crotch does not like his job of hauling the rifles. His job is to take miners to the gold fields. Also aboard is Radcliff Burke, a sinister man, who boarded the steamboat at the same time the rifles were loaded.

IV  
Now the major was trimming his cigar. He knew Crotch thoroughly, had not jumped at this scheme without thought and he made up his mind carefully where to begin his persuasion.

"In your opinion," he spoke soberly, "how important is this gold strike?"

Crotch withdrew the nugget from his pocket, placed it in the officer's hand. Last trip down from La Paz a drunk had tossed it onto the Texas deck—thrown it merely to hear sash glass tinkle! The major nodded. "I've seen the same thing before. A miner passed thru Yuma carrying as much as he could pack. And he had shoveled it from the gravel in three weeks!"

"That's where the army made its mistake. Instead of pulling out the few hundred dragoons we had in Arizona they should have sent more to force peace on the Apaches."

"And the Confederates," Murphy said quietly. "I'll tell you this, though. A courier has reached me from General Carlton. We've cleaned the country all the way to the Rio Grande. But there is still going to be a fight. When Jefferson Davis realizes the true worth of the Colorado, they're coming back in force. And already lower Arizona's sympathies are definitely with the Confederates."

The major rose and commenced pacing the floor. "The bureaucrats in Washington will also recognize the gold fields of Arizona, and finally establish an independent territory. Some sort of government will have to be set up in the North, possibly at Fort Whipple. Until they act, we've got to hold what we have."

He took a turn about the room, began again. "Lieutenant Lane has my orders to establish a company of volunteers at La Paz. These men must have guns to hold the country against the Apaches. In case of a Confederate attack they are the only ones we can depend on. We've got to hold the placer fields until Washington makes up its mind. And you must deliver my Springfield!"

"There are larger packets," Jamison and his Navigation Company. I have officers who may refuse," Crotch said thoughtfully.

"And you force me to say things I would rather not speak," the major murmured and turned his hands hopelessly. "Where you came from you had the reputation of being a tough fighter—a stubborn, rawhided man when you believe you are right. Jamison's seldom on the same side with you. He's

Home Basement Still in Demand

CHICAGO (AP) — The American family's "dream home" is ranch type, one story with a basement, three bedrooms and one and a half baths, a magazine survey indicates.

Of 5,500 readers surveyed by Popular Mechanics, 79.5 per cent said they would like a basement, despite modern architects who insist the basement is a thing of the past.

Slightly more than 60 per cent of the persons surveyed specified they wanted three bedrooms in their "dream home."

Exactly 52 per cent said they would like to have 1 1/2 baths. In the survey, 57.4 per cent of the readers said they could pay between \$10,000 and \$15,000, not including the lot, for their home.

But cost of materials for the home they want in the Chicago area would be about \$9,000 and it would cost about \$23,350 to have the home built by a contractor. The Chicago area is one of the most expensive in the nation for home building.

Plant beginning to droop and mourn? Give it a few days in your own hothouse. Where else but the bathroom? The warm steaminess of the bath and showers may do it more good than aspirin.

## In Memoriam

In loving memory of our father and grandfather, Newt Hankins, who has been gone nine years to day, Jan. 6, having died in 1946. We can never forget the day. And the moment we had to part. Today renews the sorrow. That lingers in our hearts. Sadly missed by children and grandchildren. 161-1

## In Remembrance

In loving memory of Dallas Hale, who passed away Jan. 6, 1953, two years ago today. He little thought when leaving home. He would return no more. That he in death so soon would sleep. And leave us here to mourn. We do not know what pain he bore. We did not see him die. We only know he passed away. And could say so good bye. Our hearts still ache with sadness. Our eyes shed many a tear. God alone knows how we miss you. As ends this third sad year. Sadly missed by his wife, Mable and children. \*161-1

Graveside services will be held Friday at 11 a. m. at the Douglas cemetery north of Eldorado. Rev. Ned Sutton will officiate.

## Benson Urges Presidential Board to Review Federal Employee Security System

By LYLE C. WILSON  
United Press Staff Correspondent

WASHINGTON (UP)—Secretary of Agriculture Ezra Taft Benson has proposed in "high places" that a presidential board be named to review the Eisenhower administration's federal employee security system, presently under bruising Democratic attack.

Benson has been badly mauled in the dispute involving Wolf Ladejinsky, a long-time government agriculture expert who was discharged on security grounds when his office was transferred from the State to the Agriculture Department. He had been secure enough for State Secretary John Foster Dulles.

Senate Democrats seized on this conflict in judgment by the two departments and promised a congressional investigation of the Ladejinsky case as part of an overall inquiry into the administration's security risk firings — what the Democrats derisively refer to as the "numbers game."

Sen. A. S. Mike Monroney (D-Okla.) of the Senate Civil Service Committee, said the Ladejinsky case proves there is "something wrong" with the administration's security program. Both he and Sen. Olin D. Johnston (D-Sc.) new chairman of the committee, said the case emphasizes the necessity of establishing uniform standards for passing on the security of federal employees.

**Single Agency Suggested**  
One congressional suggestion is that a single agency be set up to pass judgment on the security of all federal employees, rather than leaving clearance to individual boards and persons within various agencies as at present.

The Ladejinsky case burgeoned into a king-size headache for Benson — especially after his executive assistant, Milan Smith, made public a letter written by George N. Vitt of the "American Exporter" endorsing the Agriculture Department ouster of Ladejinsky and referring to Russian Jews (Ladejinsky is a Russian-born Jew). The letter touched off charges of anti-Semitism. These Benson denied and deplored Wednesday and previously in statements and a news conference while expressing full confidence in Smith and his security officer, J. Glenn Cassidy.

Benson told reporters Wednesday that Smith "used poor judgment."

"He is sorry," the Secretary added, "and so am I."

**White House OK's New Post**  
Meantime, the White House, in effect, repudiated Benson's security finding by approving Ladejinsky's appointment to a Foreign Operations Administration post dealing with land reform in Viet Nam. His salary will be \$11,800, about what he was getting in his old job as U. S. Agriculture attaché in Japan. This represented a calculated White House retreat before the developing Democratic attack on the Eisenhower security system as a whole and the Ladejinsky case in particular.

Benson did not budge on his security judgment of Ladejinsky. Instead, he proposed that the administration take another look at the security system which permitted and almost encouraged honest men to arrive at wholly different judgments.

**Gov. Stratton's Program Has Many Opponents**

SPRINGFIELD (UP)—Legislators today agreed Gov. William G. Stratton's state-of-the-state message "covered the waterfront" but there was plenty of disagreement with Stratton's program.

The "covered the waterfront" comment came from Sen. Merritt J. Little (R-Aurora) but legislators of both parties agreed Stratton had touched on almost every problem facing the 69th General Assembly.

The General Assembly scheduled perfunctory sessions for today after its opening meeting Wednesday. The legislators will return Monday for the inauguration of State Superintendent of Public Instruction Vernon L. Nickell and State Treasurer Warren Wright.

The remarks of the legislators on the governor's speech indicated Stratton would have trouble on these points:

**Disagree on Speed Limit**  
1. Most legislators favor a highway speed limit. But many believe it should be set at other speeds than the 65-55 day and night limits Stratton recommended. Still others don't want the recommended "definite" speed limit but prefer a "prima facie" limit where the driver would have to exceed both a specific speed and safe driving conditions to break the law.

2. Many legislators would put tax reform ahead of court reform in changing the constitution. The governor wants court reform first.

3. The toll roads program will be under heavy attack and scrutiny by the Democrats.

4. Some Republicans may balk at Stratton's call for higher workmen's and unemployment compensation and a higher minimum wage.

**Henry L. Wyatt, 71, Of Shawneetown, Dies**

Henry Lee Wyatt, 71, resident of Shawneetown, died yesterday afternoon in the Pearce hospital in Eldorado. He was the husband of Mrs. Sara Wyatt.

His body is now at the Wright funeral home, and funeral plans depend on word from a son in California.

## Stratton Wants More Home Rule for Cities

SPRINGFIELD (UP)—Gov. William G. Stratton, elaborating today on his message to the Legislature, said he wants more home rule for cities.

"The Legislature is going to have to give the cities more power to meet modern problems," Stratton said.

He met with newsmen to answer questions about points he made in speaking at the opening session of the 69th General Assembly Wednesday.

Stratton was asked about his statement "that the time has arrived to consider granting municipalities powers more commensurate with the burden of their responsibilities."

He said he had in mind changes that would permit city governments to settle more of their own affairs under their city charters. This meant not only more taxing and revenue-raising power but also administrative authority to cope with "modern conditions," he said.

**Would Increase Cities' Authority**  
The governor said that in "any big question" involving the community, such as a sales tax or large bonding issues, a referendum should be required, as under present law.

But he said in minor revenue and bonding matters, city governments need added authority.

Stratton said he hadn't asked for an "equal job opportunity" or "fair employment practices" bill in his legislative message "because I didn't think there was much interest in that session."

He said he is more concerned with his plans for increased workmen's and unemployment compensation and higher minimum pay.

Regarding compensation, Stratton said he's thinking of a "substantial increase," and not "just two, three or four dollars."

But he said he will wait further studies before naming a specific figure.

Stratton said he would oppose any "right-to-work" law, outlawing the union shop in Illinois. "We haven't had the trouble with labor some states have," he said.

The subsequent selling came after some stocks had risen \$1 or more a share above the previous close. This decline was led by aircrafts, oils, and steels. Some of the rails were weak but New York Central, Wednesday's most active issue, managed to hold a gain.

Wall Street considered senatorial attention to the market as more potent "bad news" than the Federal Reserve System's boost in margins from 50 per cent to 60 per cent.

Douglas Aircraft lost \$2 a share and Boeing airplane, \$1.13. Bethlehem Steel which had a smart rally to the previous close, fell \$1.25 a share under the previous close. Standard Oil (N.J.) was driven down \$2.50 a share.

Other wide losers included Du Pont, off \$3.13; Union Pacific, \$3; Amerasia, \$6.75; Texas Co., \$2.25; General Motors, \$1.63; United Aircraft, \$3; U. S. Steel, \$1.88; Westinghouse Electric, \$1.88; Eastman Kodak, \$1.38; Aetna Life & Fire, \$1.25; and Bendix Aviation, \$2.75.

At noon the Dow-Jones industrial average was down nearly \$3 and the rails more than \$1—declines amounting to about three-quarters of 1 per cent.

## AROUND SPRINGFIELD

### State Notices County Clerks Weekly of Registrations for 1955 License Plates

By DON E. CHAMBERLAIN  
SPRINGFIELD, Ill. (Special to The Daily Register)—Secretary of State Charles F. Carpenter, East Moline, has begun weekly notification of county clerks in each of the state's 102 counties, of registrations for 1955 motor vehicle license plates. The notification is in compliance with a law enacted by the 1953 General Assembly. First notices went out last Friday.

Purpose of the law is to assist each county in collecting personal property taxes from motor vehicle owners. As each application is processed for a passenger car, a truck or other form of motor vehicle such as taxis, ambulances, busses, trailers and semi-trailers or motor cycles, the original registration goes to the applicant and a duplicate to the clerk of his county.

Carpenter wrote each county clerk last week stating that original registration cards are being sent them each Friday. The law, he said, is intended to give each county an up-to-date list of registered car owners in the county. Last week's mailing was comparatively small, but will grow as the customary swamping of Carpenter's office gets under way in January and February.

The law was sponsored in the General Assembly by Reps. Paul Powell, Vienna; James J. Ryan and William E. Pollack, both of Chicago; G. William Horsley, Springfield; and Ben S. Rhodes, Bloomington. It requires Carpenter to send the information on each application for license plates to the applicant's county clerk for use by local tax officers. Carpenter was given \$250,000 to administer the law.

Motor vehicles licensed up to November 1st this year totaled 3,165,084 which set a new all time high over any whole previous year, with two months to go to swell it further. Last previous high for a single year was 1953 when 3,053,029 sets of plates were issued. Plates issued for the first ten months of 1954 were higher in all classifications except for motorcycles but with two months yet to go.

A breakdown by classifications, of motor vehicle license plates issued in 1954 up to November 1st is in parenthesis—is as follows: passenger automobiles, taxis and ambulances 2,672,048 (2,575,720); trucks and busses 390,893 (373,852); trailers and semi-trailers 79,626 (72,402); and motorcycles 22,517 (23,631).

Last available breakdown by counties which shows the number of passenger cars, taxis and ambulances, trucks and busses, trailer and semi-trailers and motorcycles licensed for each county together with fees collected, was for 1953.

This revealed that in Cook county there were 1,333,288 registered motor vehicles which brought the state \$27,254,737 in fees. In downstate 1,719,741 registrations brought in \$37,042,254. Downstate counties registering the most motor vehicles were Lake, St. Clair, DuPage, Madison, Winnebago, Peoria, Kane, Rock Island, Will and Sangamon in that order.

Total 1953 registrations for various downstate counties with the amount of fees paid in by motor vehicle owners, included:

Adams 24,884 motor vehicles registered and \$572,590 paid in fees; Brown 2,783 and \$64,072; Bureau 16,592 and \$373,585; DePage 84,951 and \$1,161,060; Edwards 3,712 and \$116,240; Grundy 8,499 and \$184,603; Henderson 3,422 and \$72,339; Henry 20,069 and \$468,068; Kane 42,721 and \$1,235,703; Kendall 5,933 and \$126,674; Lake 80,236 and \$1,312,111; Macoupin 17,215 and \$393,460; Madison 71,662 and \$1,424,908; Mercer 7,555 and \$147,795; Mont-

## Democrats Hit Stratton Toll Road Program

SPRINGFIELD (U.P.)—Gov. William G. Stratton's toll road program was under fire from Democrats in both houses of the Legislature today.

The Democratic attacks came even before the governor had told the 60th General Assembly of the "steady progress" of the "very carefully planned" operation of the Toll Roads Commission. Stratton addressed the opening session of the Legislature Wednesday.

Senate Minority Leader William J. Lynch (D-Chicago) and seven other Chicago Democratic senators introduced a resolution to create a 10-member committee to probe Toll Road Commission activities.

The senators said there have been charges the commission's plans were "arbitrarily formulated" and kept secret; that it sought to "prevent public review" of plans, and there was "grave doubt" about the constitutionality of the toll road law.

Reps. Jack Bairstow (D-Waukegan) and Joseph J. Lelivelt (D-Maywood) filed separate statements giving their objections to the toll roads act.

Both filed the objections under a provision allowing protests against "injurious" acts to be printed in the journals.

Lynch's resolution said the Legislature should set up a commission to determine whether the Toll Road Commission is doing its job and turn in a report by May 31.

## Aircraft Workers Wages at Peak

WASHINGTON (U.P.)—The average aircraft worker in the United States today earns \$953 more per year than he did in July, 1950, the month the Korean war began. This is \$726 per year above the average for all U. S. manufacturing employees.

Planes, official publication of Aircraft Industries Association, says that the aircraft worker's higher earnings resulting from wage increases granted by the aircraft industry in the past four years account for one-fifth of the industry's estimated \$3.54-billion payroll for 1954.

In mid-1950, the average annual earnings for aircraft workers were \$3,450, compared with \$4,413 today. Their weekly earnings have jumped \$18.32 during this time while the average for all manufacturing industries went up only \$11.71.

The article says that employment by the aircraft industry was 265,400, with a monthly payroll of \$76.5-million in 1950 and that today there are 803,000 employees and a \$295.5-million monthly payroll.

The governors of California, New York and Pennsylvania are the highest-salaried governors in the United States.

## Two Americans Arrested in Panama Slaying

### Waukegan Man and School Teacher Held Incommunicado

PANAMA CITY (U.P.)—Two Americans have been arrested and are being held incommunicado here in connection with the Sunday night murder of President Jose A. Remon, it was reported today.

Irving M. Lipstein, tentatively identified as a Los Angeles school teacher, and Roy Bettis, of Waukegan, Ill., a long-time resident of the Panama Canal Zone, are among more than 70 persons arrested since the shooting. No charge has been filed against any of the prisoners.

Lipstein, who flew in from Venezuela a few hours before unidentified tommygunners slew Remon at the Juan Franco Racetrack Sunday, was arrested when he tried to board a Miami-bound plane here Tuesday night.

Persons who saw the arrest said Lipstein was wearing old, muddy clothing at the time. Police said his baggage contained clothes "fit for a millionaire."

Lipstein's passport identified him only as a native of New York, but the Washington State Department said he is believed to be a resident of Los Angeles. The U. S. Embassy here has been unable to get in touch with him for further details.

Bettis, who has lived and worked in the U. S.-administered canal zone for 14 years, was arrested by police who were sent to bring in his chauffeur. The chauffeur is an ardent supporter of arrested ex-president Arnulfo Arias.

MOTHER SAYS SON IS NOT INTERESTED IN POLITICS

WAUKEGAN, Ill. (U.P.)—The mother of Roy Bettis, one of two Americans arrested in the search for the killer of Panama's President Jose A. Remon, said today that "he's not interested in politics."

Bettis, a 36-year-old U. S. government engineer in Panama, was picked up Wednesday. Sources said the only apparent reason was that his chauffeur was a known supporter of former President Arnulfo Arias.

Bettis' mother, Mrs. Mary C. Bettis, said the news of her son's arrest was "hard to take," but she was sure he would be found innocent of any connection with Remon's murder.

The Waukegan High School band leader, Otto E. Graham, said Bettis had told him he "kept out" of Panama politics.

Mrs. Bettis said her son was a 1937 graduate of Waukegan High School, was an Air Force lieutenant in World War II, and has been with the U. S. government service in Panama since 1940.

**Convict Second Hospital Attendant for Mistreating Patients**

MOLINE, Ill. (U.P.)—The second of eight attendants indicted for mistreating patients at East Moline State Hospital has been convicted and fined \$200.

Roy Eugene Morris, 21, was found guilty on three counts of assault and battery Wednesday by a jury that deliberated more than six hours. He was found innocent on one count of aggravated assault.

James Edwards was fined \$100 and sentenced to six months in jail earlier on a charge of aggravated assault.

Edwards and Morris and six other attendants were indicted in a grand jury investigation of conditions at the hospital.

Authorities said a third attendant, as yet unidentified, will go on trial Jan. 17.

## Eisenhower Asks Harmony in Congress

(Continued from Page One)

which now controls the House and Senate.

He said that with Congress under the Democrats and the executive under the Republicans, both parties are "on trial before the American people."

With the transition from war to a peacetime economy "largely behind us," he said "the economic outlook is good."

"Business activity now surges with new strength. Production is rising. Employment is high."

He said that if the people act wisely, within 10 years the annual national output could rise from the present 360 billion dollars to 500 billion dollars "measured in dollars of stable buying power."

Mr. Eisenhower also found the international scene heartening, but not without continuing overtones of danger due to Russia. He was encouraged by the fact that for an appreciable time there has been "no major active battlefield on earth."

While he regarded the present insecure peace as a "stalemate" in the shadow of uneasiness caused by Russia, he said the stalemate offers free nations a vital opportunity "to strive in every honorable way for enduring peace."

Pending the achievement of true peace, Mr. Eisenhower said free nations must guard against "the catastrophe of a nuclear holocaust," by maintaining enough military power "to persuade the Communists of the futility of seeking their ends through aggression."

**Stresses Balanced Force**

Emphasizing that it was prepared "under my personal direction," Mr. Eisenhower said the new military budget will give America the kind of "balanced" armed forces it needs to insure a "swift and decisive" answer to any threat of Communist aggression.

Mr. Eisenhower said he will ask Congress later for legislation to extend the draft, now due to lapse June 30, and to create a comprehensive, strong reserve force.

Details of the reserve plan will be spelled out to Congress in a special presidential message on Jan. 13.

Other key items in the new Eisenhower program:

**Foreign Trade:** A 15 per cent tariff reduction over a period of three years to encourage greater foreign trade. He will ask later for three-year extension of the Foreign Trade Agreements Act.

**Taxes:** Government costs preclude tax reductions this year, but he was hopeful for 1956. He predicted that in the current 1955 fiscal year ending June 30, federal spending will run nearly \$4,500,000,000 lower than in fiscal 1954.

**Labor:** In addition to asking an increase in the minimum wage to 90 cents an hour, he recommended that coverage of the minimum wage law be extended. He renewed last year's pigeonholed proposals for amending the Taft-Hartley law, and asked special attention to the rights of strikers to vote in representation elections and the need to equalize the responsibility between management and labor to file disclaimers of Communist affiliation.

**Schools:** He said he will send Congress a message Feb. 15 on federal action to meet the present classroom shortage which he said was a matter of immediate concern to all Americans. "Positive, affirmative action" to remedy the school shortage must be taken now, he said.

**Agriculture:** "Urgently" recommending that Congress stick to his flexible support plan, he predicted that "factors" depressing farm prices" will begin to ease and the government will have to inject itself less and less into the lives and plans of farmers. He promised later recommendations on aid for low-income farm families, plus legislation to strengthen federal drought aid programs. He said drought remains a "serious agricultural problem."

**Postal Rates and Pay Raises:**

## Blonde 'Dream Girl' Turns Out to Be Bait for Holdup by Husband

CHICAGO (U.P.)—Platinum-blond Ramona Childs was a "dream girl" to Orlando Petite and a sure-fire bait for a holdup by her husband.

Petite's dreams of wedded bliss with the green-eyed Ramona were smashed Wednesday when he met up with her husband.

The husband was holding a gun and he wanted the \$750 diamond ring Petite had given Ramona to celebrate their engagement.

This was the sad story Petite, a 36-year-old building contractor, told police.

Two months ago, he said, he was sitting in a night club and he chanced to pay a shapely blonde waitress. It was Ramona.

Petite paid court to the 25-year-old waitress and, two weeks ago, she answered "yes" to his proposal of marriage. He presented her with the ring.

"I thought she was my dream girl," Petite said.

But, early Wednesday, Ramona turned down Petite's invitation for an early morning snack and insisted that he drive her straight home.

Who would appear at her doorstep but a gunman who relieved Petite of \$350 and then snapped to Ramona "give me your diamond."

As police arrived, Petite had a horrid suspicion.

"How did he know she had a ring?" he asked the officers. "It was dark."

He reinstated his 1954 request for increased postal rates, which would raise first class mail to four cents an ounce and airmail to seven cents, to finance pay increases for postal field employees. He also will propose raises for Civil Service employees outside the postal service in a special message Jan. 11.

**Military Pay Raises:** When he submits his reserve plan to Congress Jan. 13, he will include an "incentive" plan providing extra medical and housing benefits for military personnel, plus a pay raise system for re-enlistees. The pay raise is expected to cost about 600 million dollars a year.

**Highways:** He will report Jan. 27 to Congress with detailed recommendations for a massive federal-state highway building program. He is expected to recommend added federal participation in road building of about \$26 billion dollars over a 10-year period.

**Public Works:** He will ask Congress to appropriate funds to an office of coordinator of public works to his executive offices. This is part of the administration program to build a backlog of public works plans against the possible threat of later "economic contraction."

**Natural Resources:** He urged approval of the development of the Upper Colorado River basin as part of a western water use and conservation program. His 1956 budget will recommend appropriations for six new reclamation and more than 30 new Corps of Engineers projects. He restated his belief in federal-state-local partnership in the development of hydroelectric resources and promised to submit, when completed, "a nation wide, comprehensive water resources policy firmly based in law."

**Communism:** The President promised a continuing effort "to ferret out and to destroy Communist subversion" without harming the traditions and basic rights of Americans.

**Housing:** He asked authorization of 70,000 new public housing units over the next two years.

**Health:** He renewed his plea for a federal health re-insurance system to encourage private firms to offer better voluntary health insurance coverage.

**Juvenile Delinquency:** He will propose special federal legislation to assist the states in dealing with "this nationwide problem."

**Statehood:** He repeated his request for admission of Hawaii, but did not think Alaska was ready.

A-3c Robert R. Estes returned Sunday to Gunter A.F.B. in Alabama after spending the holidays with his parents, Mr. and Mrs. Roy Estes, RFD 1, Harrisburg. He is a member of the school group and works as a laboratory technician. His brother, Roy L.

## Faculty at SIU Art Display by Art Display by

CARBONDALE, Ill. — Members of the faculty of Southern Illinois university's art department will display representative work in art at SIU from Jan. 7 to 28.

Titled "Faculty Exhibition" and including works in sculpture, painting, pottery, and silversmithing, the display will be located in SIU's Allyn Gallery. The Gallery is open throughout each week.

A coffee hour in the Gallery will follow the Friday evening, Jan. 7, community concert. On Sunday, Jan. 9, a reception and tea will be held in the Gallery from 3 to 5 p. m.

Estes, who is in Korea, has been promoted recently to corporal. He is a member of the 7th Infantry Division artillery. His wife, Phyllis, and two children live at Harvey, Ill.

Pvt. Robert L. Sullivan, son of Mr. and Mrs. C. R. Sullivan has returned to Camp Chaffee, Ark., after a brief visit home with relatives and friends. His address for those who wish to write is Pvt. Robert L. Sullivan, RA-1552193—Co. D, 81st Med. Tank Bn., Ceb. 5th Armored Division, Camp Chaffee, Ark.

# Bricker Action Major Threat To Senate Unity

WASHINGTON (AP) — The embattled "Bricker amendment" landed back in the Senate today to raise the first major threat to Senate Republican unity in the 84th Congress.

Sen. John W. Bricker (R-Ohio) announced that he was introducing this afternoon his proposed constitutional amendment, which narrowly failed of Senate passage last year despite unwavering opposition from President Eisenhower.

His amendment would limit treaty-making powers to outlaw any treaty provision in conflict with the Constitution and to prevent treaties from becoming effective as internal law except through legislation by Congress or perhaps by state legislature.

Bricker's announcement was immediately viewed in pro-administration GOP quarters as a jarring note in the harmony talk of Senate Republican leaders this week.

One leading Eisenhower partisan in the Senate, who asked not to be identified, commented that Bricker's action was the signal harmony would not last long.

Bricker, however, expressed hope he could reach agreement with the administration. In a statement announcing his plans, he said:

"I am absolutely certain that President Eisenhower would not wittingly abuse the power to make treaties and international agreements. I am confident that he is just as sincere as I am in wanting the Constitution to be supreme over every form of international agreement. I am just as anxious as the President to preserve all the powers of his high office essential to the conduct of foreign policy in this age of the atom."

"Inasmuch as the President and I have these common objectives, I continue to hope that we may be able to agree on appropriate language."

A curious froglike fish of Africa, the goby, climbs trees to feed on wood ants. Often some gobies climb while others stay below to nab dislodged victims.

LI'L ABNER

CAPTAIN EASY

## Eighth Graders Meet At Presbyterian Church

(Continued from Page One)

ing fountains, of pencil sharpeners, and others.

"But," he continued, "sometimes people capitalize on emergencies and do better. Out of the ashes of Junior high can come another well-equipped, modern building."

### One New Student

He told of a champion fighter who said that a champion is one who can fight one more round after he's whipped, then related about the American ships coming up out of Pearl Harbor after the big attack and eventually whipping the Japanese fleet.

"We've tried to get the closest adequate places for classes," he said. "You'll have a reasonable amount of equipment, and we'll get along."

There was one new pupil at school today, who must face the inconveniences of the emergency along with the other eighth graders. She was Miss Judy Fischer, daughter of Mrs. Byron Fischer, who had lived in Chicago and attended school there all her life.

Today's activities got under way with the showing of films to the students, including the WSIL-TV films of the Junior high fire. This afternoon Eddie Wise of WEBQ presented the tape recording he made at the scene during the early morning hours of the conflagration.

## Students Collect 1,020,000 Pennies For Building Fund

MILWAUKEE, Wis. (AP) — A pile of 1,020,000 pennies flowed from the maximum floor of Pius XI High School today.

The pennies represented \$10,200 collected by pupils at the school for a building fund for a new addition.

The coins — more than 3½ tons of them in a pile about 100 feet square and three feet high at the center — were piled on the gym floor for the pupils who wanted to see a million of something.

The pupils sang on the streets at Christmas, washed cars, shoveled snow and did other odd jobs to raise the money.

Picnic sandwiches will stay fresh longer if you seal the edges of the wax paper with a hot iron after they are wrapped.

JOE'S BOY—Joe Louis trains Paul Andrews, who attracted further attention knocking out Boardwalk Billy Smith in Miami. The 24-year-old Buffalo heavyweight credits the former champion with much of his success. (NEA)

## Jaycees Discuss Coming City Election

The Harrisburg Jaycees held their regular weekly meeting at Scherler's cafe last night with 14 present.

Jim Sullivan, a new member, was present and introduced to other members. John Cape was named program chairman for the month of January.

A new telephone attendance committee was appointed, and members spent the evening discussing the coming election of city officials.

A hippopotamus has a stomach over 10 ft. in length — so large that it can hold 400 or 500 pounds of food.

## Galatia Defeats Raleigh to Clinch Midget Loop Title

Galatia's unbeaten grade school quintet won its 10th straight victory yesterday, defeating Raleigh, 43-32, and clinching the Midget conference championship.

The young Bearcats had little trouble disposing of the invaders despite the fact they played without the services of their tall center, Verlie Beers. Beers, 6 foot, one inch seventh grader, was out of the lineup because of illness.

The Galatia team has only one more conference game to play and no other member of the conference has lost less than two games.

## NCAA Studies Six Proposals For Football TV

NEW YORK (AP) — That ol' debbil, television, was the No. 1 problem today as the NCAA delegates began round-table talks to determine the best way to give their product away and also have people pay for it.

Six proposals were known to be up for discussion in an attempt to find a television program which would be suitable to major and minor colleges, the major networks and especially to the powerful Big Ten and Pacific Coast conferences.

The No. 1 compromise proposal, revealed Wednesday by the United Press, would call for a "half and half" program. Under this proposal, a single college game would be televised nationally on five Saturdays with regional broadcasts scheduled for the other five Saturdays.

The other known proposals call for almost everything from a repeat of the 1954 program to a return to the unrestricted telecasts which the small colleges claim would ruin attendance at their games.

Compromises Listed

The other "compromise programs" are as follows:

1. A national regional program permitting telecasts of one home game and one road game on a regional basis in addition to one national telecast.

2. Televising one home game and one road game — with only one game permitted on a national network.

3. A regional plan without any national television — one home and one away game per college.

4. The ECAC's plan: Same framework as 1954 but the choice of the nationally televised game to be made about five days before the game.

To Take Straw Vote

Following today's discussion, a straw vote will be taken and the "favored" program passed along to the NCAA Television Committee. The committee, however, has authority to determine the 1955 program without regard to the outcome of the straw vote. The 1955 committee will be named on Saturday.

The American Football Coaches Association Wednesday approved a four-point recommendation outlining a 60-hour spring training season. They also unanimously approved recommendations for three rules changes, which were submitted Tuesday by Lou Little's 30-man special committee.

The coaches hoped to put their spring practice resolution before this year's convention although it cannot be acted upon by the NCAA at this year's meeting.

## House Group Claims Scandal in Tungsten Deal

WASHINGTON (AP) — The Justice Department today studied charges by a House investigating subcommittee that the United States was bilked out of at least one million dollars in a tungsten scandal.

The charges involved an international 5 percent, dummy corporations, alleged bribery and a royal Thai prince, the report said.

The subcommittee, headed by Rep. Charles B. Brownson (R-Ind.), said the government got the worst of it in contracts to buy about 17 million dollars worth of the vital material from Thailand during the Korean war.

The contracts for the strategically vital tungsten were suspended by the General Services Administration in August, 1953, after disclosure of alleged "manipulations" by four Thai mining companies.

The subcommittee's report was sent to the Justice Department. Denies Govt. Gyped

Baron I. Shacklette, chief of the General Services Administration's compliance division, would not concede the government has been gyped.

"We got good tungsten," he said. "We didn't pay for anything we didn't get." Shacklette added that about \$500,000 worth of tungsten has been delivered for which the United States has not paid.

The contracts were negotiated in an effort to assure a continuous supply of tungsten from Thailand mines. Agreement was for tungsten at \$65 a unit, regardless of world market prices. The tungsten was to come from Thailand mines only.

But the firms involved failed to deliver the required tungsten when the world price was up around \$78, the subcommittee said. When the price dropped to \$45, the subcommittee said, the Thai firms started buying outside tungsten and resold it to the United States at a profit—all in violation of the contracts.

In the average vineyard, each acre contains from 500 to 800 vines.

## Looking At Sports

By BILL MELTON

LIFE IS WONDERFUL! Dick Lehr finds it that way.

Lehr, coach at Bridgeport, watched his team cop a couple of tourney championships within a week. After taking the big trophy in their own invitational by beating Albion in the title game 78-67 on Dec. 29, Lehr's boys came back on New Year's Day to take top honors in the Big Four tourney at Carmi.

Entered in the Carmi-hosted affair were Crossville, Olney, Bridgeport and Carmi. Bridgeport won over Carmi in the championship game 66-51.

Last year Bridgeport won a tourney and Lehr reported it was the first time in a generation that Bridgeport had added a trophy to its collection. Now there are two more.

And Tuesday night Bridgeport outscored Olney 64-60. Yep, LIFE IS WONDERFUL! Just ask the coach of a winning ball team.

Using the word generation in one of the above paragraphs reminded me that I am now covering the athletic activities of a second generation. When I first started reporting sports for the Eldorado Journal back in 1932 or '33 Tom Stroke was a big man in the ETHS football line. The past season Ronnie Stroke, Tom's son, was a regular end on the ETHS football team.

Along near the end of the season I complained to several that the football field was much longer than it used to be. Took so much longer for me to get from one end to the other.

Now that I realize that I am watching my second generation I have decided the old joints are running out of oil—but that the field is just the same 100 yards that it was in the early '30s.

Maybe that's why basketball becomes more popular with me each year—can cover it "settin'."

LITTLE EGYPTIAN CONFERENCE STANDINGS

## Robinson Hopes For Summer Bout With Bobo Olson

DETROIT (AP) — Sugar Ray Robinson, the former welterweight and middleweight champion who opened his comeback campaign with a sixth-round knockout of Joe Rindone Wednesday night, said today he thinks he'll be ready for a summer crack at Carl (Bobo) Olson's 160-pound title.

Robinson, in his first official bout in 30 months, floored the balding Rindone at one minute and 37 seconds of the sixth round and was in command all the way. Sugar Ray scaled 159 and Rindone 163½ for the non-televised bout.

"It'll take me five or six more fights to get my timing back to where it was when I quit in 1952," the 34-year-old Robinson said. "But I should be ready for Olson by summer."

Robinson was quick as ever against the not too impressive Rindone, 28-year-old from Roxbury, Mass. His reflexes were good but at times his punches were a fraction off the mark.

Sugar Ray vacated the middleweight title 30 months ago after he tried unsuccessfully to dethrone then light heavyweight champion Joey Maxim. He was a song and dance man during his now ended retirement.

## Indiana Urges Illinois to Consider Highway Speed Law

INDIANAPOLIS, Ind. (AP) — Indiana is satisfied with its 65 m.p.h. highway speed limit, but may amend it to penalize the "slow-poke" motorist.

State police, traffic safety leaders and the Hoosier Motor Club all applauded the 2-year-old law and recommended it for consideration by the Illinois Legislature.

Illinois now has "reasonable and prudent" speed limits. The Chicago Motor Club has suggested Illinois adopt a law similar to Indiana's.

State Police Supt. Frank Jessup said the limit reduced speed on Indiana highways and thereby cut traffic fatalities. The 1954 Hoosier highway toll is down 203 from 1953, a savings of about 17 per cent, and Jessup said the speed law "definitely aided" in that savings.

## Mrs. Emily Smith Named Girls' Physical Education Instructor at HTHS

Mrs. Emily Smith, who taught at Harrisburg Township high school for two years three or four years ago and resigned to move to Michigan, has returned here to accept the post of girls' physical education instructor.

She replaces Miss Elizabeth Clayton, who resigned during the holidays.

## Bull Dogs Play Powerful Centralia At Davenport Gym Friday Night

### Orphans Rated Fourth In State; Locals at Marion Saturday

The Bull Dogs get back into South Seven conference basketball competition tomorrow night when one of the power houses of the state, Centralia, comes to Davenport gym for a loop contest.

The Orphans, tops in the South Seven and loser of only one game this year, will present the ace of aces, Bobby Joe Mason, sometimes called the Splendid Splinter, one of the finest all-around athletes ever to come out of Centralia high school despite his slight build.

A look at Mason in basketball togs does not reveal much, long and skinny with both knees padded. But when the game gets under way the poker-faced lad, in his fourth year of varsity competition, takes charge. He scored 48 points in one game during the recent holiday tournament at Centralia.

Centralia's only loss this year was 77-73 to Collinsville in this same tourney and the Orphans currently are ranked fourth in the state with 11 victories and one defeat. In the South Seven the Orphans are 4-0, only team undefeated in league play.

The Bull Dogs are still looking for their first conference win of the season although they have won three tilts outside the league. After tomorrow night's game, the locals will travel to Marion Saturday evening. The Bull Dogs, although they lost, played one of their best games of the year against Marion here.

A big game Friday night will find West Frankfort at Mt. Vernon. Frankfort beat the Rams in the Harrisburg holiday tournament and finished second to Edwardsville, but that doesn't mean that the Red Birds can do it again. And the Rams will be on their home floor.

Both Mt. Vernon and Frankfort hold 2-1 marks in the South Seven.

Other Games

Other loop game Friday night will pit Marion against Benton on the floor of the Rangers. The other South Seven team, Herrin, will

be host to East St. Louis.

Harrisburg-Marion will be the only loop game Saturday night.

Other South Seven teams play as follows: Herrin host to Zeigler, Centralia host to Flora, West Frankfort host to Carbondale.

Other contests:

Friday — Elkville at Carterville, Metropolis at Johnston City, McLeansboro at Eldorado, Pope county at Galatia, Rosiclare at Vienna, Cave-in-Rock at Ridgway, Dahlgren at Crab Orchard, Shawneetown at Equality, Sparta at Anna-Jonesboro, Salem at Flora, Mt. Carmel at Carmi and Du Quoin at Murphysboro.

Saturday — Carterville at Carri-

er Mills, Johnston City at Murphysboro, Eldorado at Galatia, Pinckneyville at Chester, Mt. Carmel at Salem.

South Seven standings:

Team W L

Centralia 4 0

Mt. Vernon 2 1

West Frankfort 2 1

Herrin 2 3

Marion 2 3

Benton 1 2

Harrisburg 0 3

## Social and Personal Items

Mrs. Gladys Parker Hostess  
To Loyal Daughters Class

The Loyal Daughters of the First Christian church met at the home of Mrs. Gladys Parker Tuesday evening.

The meeting was opened with the devotion, "The Riches of God's Blessings," and the reading of the 96 Psalms. Reports were then made by the secretary, Mrs. Mary Gooden, and Mrs. Florence Roberson, the treasurer. These reports showed a very prosperous year, both spiritually and materially.

Plans were then discussed for the coming year. The closing prayer was led by Mrs. Parker.

Mrs. Myrtle Poulis was in charge of the social hour. Games were enjoyed by all and prizes awarded. The door prize was given to Mrs. Nancy Harris.

Members present besides those already mentioned were Mrs. Mary A. Churchwell, Mrs. Myrtle Adams, Mrs. J. C. Meier, Mrs. Zola Sloan, Mrs. Clara Borders, Mrs. Clyde Lightfoot, Mrs. Laura Rice, Mrs. Loda Hawkins, Mrs. Edna Miller, Mrs. Blanch Williams, Mrs. Marguerite Smith.

Refreshments of apple pan dowdy and coffee were served by the hostess who was assisted by her daughters, Jeanette and Elaine, and son, Howard.

## Galatia Home Bureau Has Dinner Party

The Galatia Home Bureau unit held its annual husbands dinner party Thursday evening at the home of John C. Small.

Two well appointed tables each seating ten people provided for the sumptuous potluck meal.

A variety of games conducted by various members of the group provided entertainment until time for the opening of Sunshine gifts and the men's gift exchange.

Several left early while others stayed to play the game of "Scrabble."

Those attending were Mr. and Mrs. Hubert Bond, Mr. and Mrs. Max Cochrum, Mr. and Mrs. "Pete" Gardner, Mr. and Mrs. Joe Hatcher, Mr. and Mrs. Jewel Cook and daughter, Arlene, Mr. and Mrs. Alex Kriehl, Mr. and Mrs. Charles Riegel and Mr. and Mrs. L. Riegel.

## Danny Lee Hancock Has Party on 9th Birthday

A birthday party was held Tuesday at 4 p. m. at the home of Mrs. Vivian Hancock for the ninth birthday of her son, Danny Lee.

Games were played and prizes won by Bobby Cook, Marla Ingram and Linda Spencer.

After Danny had opened his many gifts, birthday cake decorated with a miniature merry-go-round and ice cream were served and balloons given as favors.

Present were Linda Kay Spencer, Karen Thomas, Violet Barger, Marla Ingram, Linda Penrod, Billy Chambers, Bobby Chambers, Clifford Kiehorn, Bobby Cook, Danny Cook, Steven Burns, Dennis Partain, Mrs. Rosalee Barger, Mrs. Grace Duncan, Mrs. Roxana Ingram and Mrs. Vivian Hancock.

## Circle Meets With Lodema Sisk

The Business Women's Missionary circle of Morrisville Baptist church met Tuesday evening at the home of Lodema Sisk. Title of the lesson was "Pointing the Chosen People to the Way." Prayer was by Rose McIlraith and Norma Aldridge.

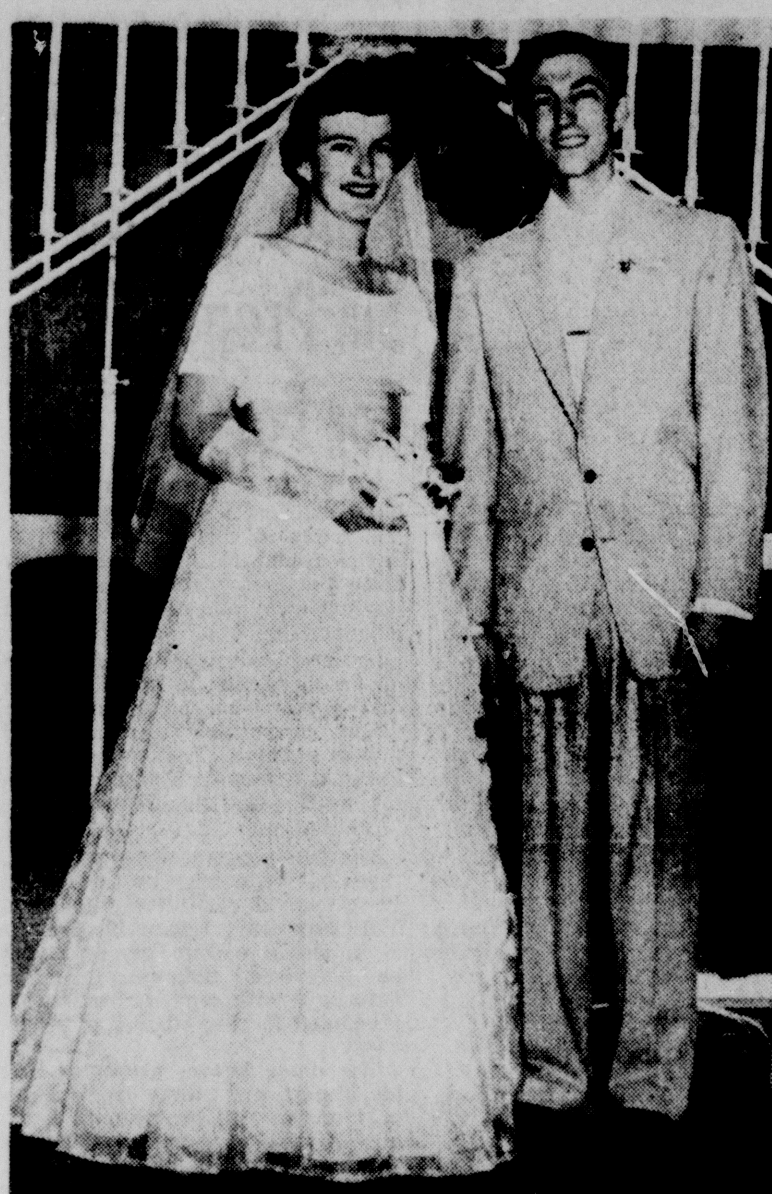

Topics were given by Joy Randolph, Rose McIlraith, Gay Hull, Novella Sherrod, Ruth Dorris, Ava Lyons, Norma Aldridge, Laverne Kuppert, Ruby Hall and Lodema Sisk.

## Dinner Party Held At Home of Arleigh Phillips

Mr. and Mrs. Arleigh Phillips were host and hostess recently to a dinner party at their home, 316 East Poplar street.

Present to enjoy the meal were Mr. and Mrs. Otis Stone of Galatia, Mr. and Mrs. Herman Parton of Creal Springs, Mr. and Mrs. Harvey Hibbs, Virginia and Larry of Liberty community, Mr. and Mrs. Cecil Rice, 315 East Raymond, Bill Beal of Harrisburg and Mr. and Mrs. Phillips and daughter, Helen.

The evening was spent in visiting and watching television.

MR. AND MRS. JOSEPH L. PENROD, after their recent marriage in the Tabernacle Baptist church in Roswell, N. M. Mrs. Penrod was before her marriage Miss Barbara Gray, daughter of Mr. and Mrs. Guy Gray, 1715 North Ohio avenue, Roswell, N. M.

## Joseph L. Penrod, WAFB, Weds Miss Barbara Gray At Roswell, New Mexico

Miss Barbara Gray, daughter of Mr. and Mrs. Guy Gray, Roswell, N. M., recently was married to Joseph L. Penrod, WAFB, and son of Mrs. Fannie Penrod of Muddy, at the Tabernacle Baptist church with the Rev. Howard Ingram, pastor, performing the double-ring ceremony before an assemblage of relatives and close friends.

Baskets of summer flowers lighted by candles in candelabra against a background of greenery formed the decorations. Miss Nancy Welsh, organist, played bridal music and accompanied Don Wischof, WAFB, when he sang "Oh Promise Me," "Because," and "The Lord's Prayer" as a part of the ceremony. The traditional wedding marches were played for the entrance of the wedding party and the recessional.

Given in marriage by her father, the bride wore a floor-length dress of lace over satin. The bodice of the dress was finished with scooped neckline, half sleeves of lace over satin, and joined to the full skirt of lace by a softly-crushed cummerbund of satin. Her fingertip veil of illusion fell from a cap of lace and she carried a white Bible marked with blossomed white satin ribbon and decorated with white orchids. Her lace mitts matched the lace of her gown, and she carried a lace handkerchief which had been her maternal great grandmother's.

Miss Dorothy Paine, also of Roswell, was maid of honor, and the bride's sister, Donna Sue Gray, and her junior maid, Miss Payne, were attired in identical dresses of blossom pink and aqua blue. They carried bouquets of pink carnations.

Richard Cunningham, WAFB, was best man for the groom. Ushers were Tommy Donahue and Tommy Pirtle.

The mother of the bride wore a dress of teal blue silk with charcoal colored small hat, matching gloves and slippers. She wore pink carnations. The groom's mother was unable to be present.

A reception was held in the parlors of the church where the bride and groom received the congratulations and best wishes from their friends. A tiered wedding cake

was cut and served with ice punch. The serving table was covered in lace and centered with yellow asters and greenery. Mrs. George Pirtle served as hostess, and Jo-lyne Wischof served the cake and Betty Smith poured the punch.

The couple left for a short wedding trip to Ruidoso, N. M., for which the bride changed to a dress of ice blue faille, made princess style, with which she wore navy blue hat and accessories, and a white corsage.

The bride was graduated from Roswell high school last spring. The bridegroom was educated in Harrisburg public schools and later studied at the Southern Illinois university in Carbondale. He has been with the United States Air Force for two and a half years and is now on duty in England.

## Ledford Baptist W. M. S. Has Royal Service Program

The W. M. S. of the Ledford Missionary Baptist church met Tuesday at 7 p. m. for the Royal Service program.

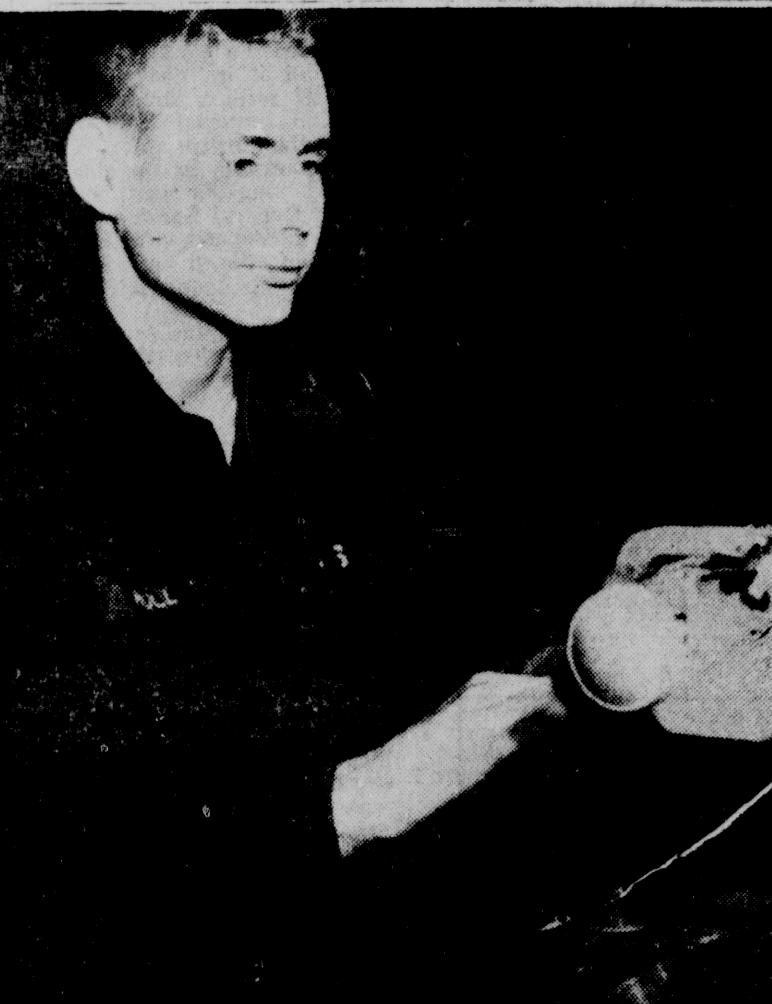

The meeting was opened with a song, "Rescue the Perishing," and with prayer by Blanch Clarida. The president, Wavel Roberts, read several poems composed by Anderson Strader, a patient in the Harrisburg hospital.

Following the business meeting the remainder of the program was under the direction of Virginia Yates. The devotion, "The Master Witnessing to Jews," taken from Luke 24:13-31, was given by Blanche Clarida. Prayer was offered by Freda Jarrell.

The following topics were given: "Pointing the Chosen People to the Way," by Freda Jarrell, "They Stick Together So," Clara Evans; "They Get On So," Marianna Carrier; "What Do They Believe," Ethel Lynch; "Have They Lost Their Way?" Virginia Yates.

A solo, "The Love of God," was sung by Marianna Carrier after which "Our Southern Baptist Guideposts" was given by Nancy Yates and Nell Hancock. Agnes King gave "Try Love," and Nell Hancock dismissed the group with prayer.

The large air cavities and the thin walls of its fibers cause the lightness of balsa wood.

CPL. DONALD W. HULL of Harrisburg is serving in Germany, where he is a clerk-typist with the chemical section of V Corps headquarters. Corporal Hull, son of Mr. and Mrs. Silas Hull, Route 3, worked for the Caterpillar Tractor Company, Peoria, Ill., before entering the Army in August 1953. He arrived overseas in January 1954. (U. S. Army Photo)

Mrs. Ray Altire  
Addresses Woman's Club  
At Elizabethtown

Mrs. Ray Altire and Mrs. Louis Aaron went to Elizabethtown Tuesday evening, where Mrs. Altire addressed the Elizabethtown Woman's club at a public health and welfare program, on the subject, "Aging Successfully." The guest speaker and her escort were guests of Mrs. Charlotte Gullett at the Elizabethtown Woman's club meeting and at dinner that evening, at the historic old Rose hotel.

facts before we pass on gossip.

### Life-and- Death Chapter

**Editorial — BY BRUCE BLOSSAT**  
The administration is planning  
to ask Congress to appropriate  
from \$2 billion to \$2.5 billion in ad-  
ditional funds for the Air Force.  
But some men in Congress think  
the boost ought to be greater.

The argument runs something  
like this:

Since the dawn of the atomic  
age, the United States has had  
first a monopoly and then a long  
numerical lead in nuclear weap-  
ons over the Soviet Union. But  
Russia is now producing both  
atomic and hydrogen bombs in in-  
creasing numbers. And as it  
builds a substantial stockpile, the  
numerical difference becomes less  
important by itself.

What will count hereafter will  
not be numbers alone, but quality  
of weapons, and the ability to de-  
liver them over the targets. There  
is some question whether the United  
States is advancing in these  
matters as fast as it should.

For when Russia has enough  
bombs to wipe out America's in-  
dustry and urban centers, to be  
safe we can act only on the as-  
sumption that the Kremlin might  
some day try to do just that. We  
must anticipate that Soviet lead-  
ers might attempt a sneak attack  
designed to smash not only our in-  
dustry but the power of atomic air  
force to retaliate with crushing  
blows against Russia.

We know we can never start a  
war, preventive or otherwise. Our  
moral principles will not permit us  
that course. Therefore, if war is  
ever to come, it will be the Reds  
who will strike the first blow.

Consequently, it is plain that  
our Air Force, and our supply of  
nuclear weapons, must together  
be strong enough to absorb the  
first attack the Russians can de-  
liver against us, and then be  
thrown into gigantic counter-  
assault upon the Soviet Union.

If we have such a force, and the  
Russians know it, that is the best  
assurance that there will be no  
war. For the men in Moscow  
would know that to launch an at-  
tack upon the United States would  
be to bring down on their heads  
the havoc of ruinous hydrogen  
warfare. They would not likely  
choose to liquidate their power and  
indeed, their country.

But the critics of America's  
present Air Force plans say we  
do not have the kind of force we  
need, and are not moving to get it.  
These are grave charges, for they  
obviously involve the whole safety  
of the nation.

We cannot stop the Russians  
from making enough nuclear weap-  
ons to destroy us. But we can  
produce enough bombs and planes  
and air bases to make sure that  
we can counter the worst they can  
throw at us. When the time comes  
this winter to discuss money for  
the Air Force, our lawmakers and  
our administration leaders should  
debate openly and fully whether  
we are projecting the necessary  
strength to achieve that life-and-  
death objective.

There are no birds in the red-  
wood trees of California. The trees  
secrete poisonous substances which  
are deadly to the insects upon  
which the birds would normally  
feed.

## Illinois Tax Revenue Down

SPRINGFIELD, Ill. — The State  
Revenue Department today an-  
nounced six major taxes brought  
in a million dollars less in 1954  
than in 1953.

Richard J. Lyons, state revenue  
director, said the taxes produced  
a record \$422,236,062 in 1953, and  
\$421,255,608 in 1954.

The sales tax, the state's biggest  
source for general revenue, went  
up in December, 1954, over Decem-  
ber, 1953, for the first monthly  
comparison increase of 1954. The  
December, 1954, collections were  
\$17,450,469, and December, 1953,  
\$17,038,754.

The total sales tax collections in  
1954 was down about nine million  
dollars from 1953. The 1954 col-  
lections were \$200,978,311.

Motor fuel taxes, earmarked for  
highway use only, were up seven  
million dollars to \$136,559,912. Cig-  
aret rates were down one million  
to \$30,580,745.

Liquor gallonage taxes were  
down \$1,100,000 to \$23,573,245. Pub-  
lic utility taxes were up \$2,700,000  
to \$28,678,932. Petroleum inspection  
fees were up \$40,000 to \$884,463.

## Alcatraz Site Of Lighthouse

ALCATRAZ, Calif. — Often a  
stranger peering at awesome Al-  
catraz through the black night  
thinks he's seeing a rotating  
searchlight scanning the bay's  
swirling currents for the convict  
that might someday escape from  
"The Rock."

But the powerful light which has  
mystified San Francisco visitors  
and greeted its natives nightly for  
so long is much older than the fed-  
eral prison that gives the name  
Alcatraz its familiar ring — five  
times older in fact.

One hundred years ago this  
month the 100,000-candlepower  
light began guiding mariners. With-  
out interruption, Alcatraz Light-  
house has continued its nocturnal  
mission ever since.

The light flashes briefly once  
every five seconds from atop a 214-  
foot tower. This accounts for the  
illumination that is a searchlight  
illuminating the island and its ap-  
proaches.

### Keeper a Veteran

Michael Cassin was Alcatraz  
Light's first keeper back in 1854.  
He was also one of the earliest in-  
habitants of the island, which be-  
came an Army fort that same year  
after remaining unoccupied three  
quarters of a century after its dis-  
covery.

The light had been furnishing  
bearings in the foggy day for near-  
ly 50 years when the fort became  
a disciplinary barracks around the  
turn of the century.

The light was 80 years old when  
the justice department took over  
from the Army in 1934 and estab-  
lished on the barren rock the only  
maximum security penitentiary in  
the federal penal system.

Today's keeper is Edward H.  
Schneider, 56, of Oakland, Calif.,  
who has had the job since 1931  
and wants to stay on until his re-  
tirement. A civil service employe,  
big, jovial Schneider plays Santa  
Claus each year for the children  
of the 40 families that live on the  
island.

His assistants are two coast  
guardsmen, James N. Dustan, an  
engineer, and John H. Wiener, a  
seaman. They live with their  
families in Coast Guard quarters  
on the island.

## 12 Leave Marion To Join Navy's '49th State Co.'

Twelve men will leave Marion  
this afternoon for St. Louis where  
they will join the Navy's first "49th  
State Company," Chief Pease, Na-  
vy recruiter in Marion, announced  
today.

The men are:  
Marvin Ernest Nowicki, son of  
Edwin Nowicki, Ashley;  
Jimmie Paul Sulcer, son of Paul  
Sulcer, Ashley;  
Fred Albert Odum, son of Fred  
A. Odum, RFD 3, Marion;  
Lawrence Oliver Johnson, son of  
Noah Johnson, RFD 2, Creal  
Springs;  
Curtis Lowell Neal, son of Curtis  
R. Neal, Belle River;  
Robert Lewis Tresso, son of Lou-  
is Tresso Jr., West Frankfort;  
John Arthur Eastman, son of  
Harold J. Eastman, Tunnel Hill;  
Marvin Clyde Smothers, son of  
Clyde Smothers, Benton;  
Carl Eugene Miller, son of  
Frank Miller, Benton;  
Aubrey Lee Francis, son of Al-  
mus R. Francis, Goreville;  
Howard Eugene Guley, son of  
Mrs. Mary Louise DeMoss, 15  
North Jackson street, Harrisburg;  
Robert Lee McAnelly, son of  
Mrs. Jetta W. Orl, Marion.

As part of the first "49th State  
Company," the new recruits will  
be enlisted at St. Louis, Mo., and  
will train as a unit for nine weeks  
at the Naval Training Center,  
Great Lakes, Ill.

### Christmas Seal Bond Purchasers

Additional purchases of Christ-  
mas Seal sale bonds have been  
listed by Mrs. Naida Seright Up-  
church, chairman of the annual  
campaign by the Saline County Tu-  
berculosis association. They are  
as follows:

\$5.00: Richard Paul Gray, Frank  
Mitchell, Ford Brick and Tile Co.,  
Wasson's department store and Ila  
Milligan.

Mrs. Upchurch asks that all do-  
nations in the campaign be turned  
in as soon as possible so the asso-  
ciation can close the books on the  
current drive.

## The Fliers' Lives Are Not All That's at Stake

**The WASHINGTON  
MERRY-GO-ROUND**  
By DREW PEARSON

**DREW PEARSON Says: Se-  
cret Report Hits Federal Sup-  
port of School Lunch Pro-  
gram; Commission Also Urges  
Withdrawing Federal Funds  
From School Construction; Op-  
position Claims Attempt To  
Thwart Educational Process.**

WASHINGTON. — A secret re-  
port is on its way to President  
Eisenhower's desk urging him to  
cripple the school lunch program.

The report is written by the  
Commission on Intergovernmental  
Relations, formerly headed by  
Clarence Manion, who was re-  
placed by Meyer Kestbaum, head  
of Hart, Schaffner and Marx, after  
Manion resigned over the Bricker  
amendment battle.

The commission, which is sup-  
posed to improve government effi-  
ciency, has taken a strong stand  
through its subcommittee on edu-  
cation against spending federal  
money for the school lunch pro-  
gram.

Though acknowledging that the  
"school lunch program is benefi-  
cial to the health and welfare of  
school children," the report urges  
local financing and concludes:  
"The program is not a federal  
responsibility. Federal participa-  
tion should be gradually tapered  
off."

The secret report also recog-  
nizes that "years of depression and  
war have left a grossly inadequate  
school plant," yet in the same  
breath, it recommends flatly:  
"The general conclusion is that  
federal aid is not necessary for  
either current operating expenses  
for public schools or for capital  
expenditures for new school facili-  
ties."

The commission's solution is to  
let the states and local communi-  
ties put up the money for school  
construction "in accordance with  
the will of their citizens."

This would mean unequal educa-  
tional opportunities for American  
youngsters, the commission ac-  
knowledges, because of "differ-  
ences in fiscal ability among  
states."

However, the report observes  
impatiently: "Those differences  
have been narrowing considerably  
in the last two decades. Efforts to  
are still substantial. Efforts to  
narrow the gap should aim at rais-  
ing the economic level and the ca-  
pacity of the less wealthy states  
rather than subsidizing them. Ex-  
isting disparities have been and  
can continue to be ameliorated by  
the prudent use of the progressive  
federal tax system."

### BACKSTAGE FIGHT

These drastic recommendations  
stirred up such a battle behind the  
scenes, however, that almost half  
the presidential commission abso-  
lutely refused to sign the report.  
One member, Atlanta's school  
superintendent Paul West, was so  
sore that he put out a sizzling  
minority report blasting the major-

### Which Came First— Brower or Duryea?

SYRACUSE, N. Y. — Experts  
on ancient automobiles are trying  
to decide whether the Brower run-  
about should replace the Duryea  
as America's first horseless car-  
riage.

The Brower's claim to fame is  
based on an old photograph re-  
cently found in the archives of the  
Onondaga Historical Association.  
It purports to show a picture of  
the Brower as it was in 1890, two  
years before Charles E. Duryea  
set off in his horseless carriage in  
Springfield, Mass.

The car was reported to have  
been exhibited and demonstrated  
by its maker, F. C. Brower, a safe  
expert and locksmith.

Wood ibises scratch the bottoms  
of shallow Florida ponds with their  
feet, muddying the water so thor-  
oughly that fish rise to the surface.  
Within easy reach, the fish then  
fall victims to the birds' appetite.

ity recommendations as "a futile  
attempt to reverse the course of  
American history."

"There is no doubt that our state  
and local tax structures need over-  
hauling," writes West, "but here  
again the (majority) report wishes  
to engage the people in a theoret-  
ical debate while postponing the so-  
lution of a more pressing problem  
—adequate education for children  
and youth who will grow into ad-  
ulthood while we reform our tax  
structure."

West was joined in his backstage  
fight by such distinguished edu-  
cators as Roy Simpson, Califor-  
nia's superintendent of public in-  
struction; The Very Reverend  
Monsignor Thomas J. Quigley of  
Pittsburgh; Oscar Earhardt, chair-  
man of the St. Louis school board;  
and Carl J. Megel, president of  
the American Federation of Teach-  
ers. They frankly considered the  
majority recommendations as a  
threat to the nation's educational  
future.

On the other side, the majority  
signers were led by Adam S. Ben-  
nion of Salt Lake City and Roger  
A. Freeman of Olympia, Wash.,  
both prominent educators in their  
home states. They also were joined  
by ex-Gov. Alfred Driscoll of  
New Jersey, President Henry Wris-  
ton of Brown University and A.  
Boyd Campbell, president of the  
Mississippi School Supply com-  
pany and education chairman for  
the U. S. Chamber of Commerce.

At one point, the majority report  
partially backs down on withdraw-  
ing federal money from the  
schools. Pointing out that federal  
funds are furnished for roads, hos-  
pitals, airports and other facilities,  
the report admits: "Schools are  
working under a handicap if all of  
their funds must be raised locally  
or by states while other facilities  
are partly financed by the federal  
government. While we are opposed  
generally speaking to grants-in-  
aid, as the whole import of our re-  
port has indicated, we believe that  
if that principle is to be abandon-  
ed and there are to be grants-in-  
aid, schools should not be ignor-

### VOCATIONAL EDUCATION

This brought an answering blast  
from West, who declares: "The re-  
port of the committee stands or  
falls on the assumption that the  
clock will be turned back and that  
in the very near future, federal  
grants for highway, airport and  
hospital construction will cease,  
thereby making grants in aid to  
education unnecessary. The report  
adduces no evidence to sustain this  
assumption; indeed, as recently as  
July, 1954, President Eisenhower  
called for an expanded highway  
construction program financed by  
federal and state funds."

"State and local governments  
can and should provide from their  
own funds an adequate vocational  
program," the report states.

However, the minority fought  
vigorously against abandoning this  
program, which teaches improved  
farming methods in backward ru-  
ral areas.

The showdown over federal aid  
to education will now be passed to  
the White House.

When the "Grand Old Man of  
Congress," Sam Rayburn of Texas,  
took over the speakership of this  
Congress, he chalked up a new re-  
cord and continued another. Ray-  
burn has the longest record of con-  
tinuous service of any member of  
the House or Senate—since March  
4, 1913. His closest competitor is  
Carl Vinson of Georgia, a member  
of the House since Nov. 3, 1914.  
Rayburn had eclipsed the record  
of Henry Clay, even before this  
Congress, as House speaker. . . .  
British and American financial ex-  
perts have been wrangling over  
one penny. The British have just  
figured that their annual payment  
for the U. S. "line of credit" loans,  
not counting interest, should be  
\$47,049,983.20. The Treasury agrees  
on the above figure, except for the

**Record Loan**  
PROSSER, Wash. — The large-  
est loan ever made by the Com-  
modity Credit Corporation has gone  
to a Prosser wheat farmer, the  
CCC announced. The loan of \$354,  
339 went to Leo Horrigan on 152,  
839 bushels of wheat.

The bison, Kodiak or Alaska  
brown bear, and the Alaska moose  
are the three heaviest animals of  
North America.  
Don't toss out those fresh, green  
celery leaves. Use them to add  
flavor and nutritive value to soups,  
or dry them to use as seasonings.

## Amazing Milk Discovery! Carnation Instant Not like any other

Not a powder, not a flake—  
only Carnation has

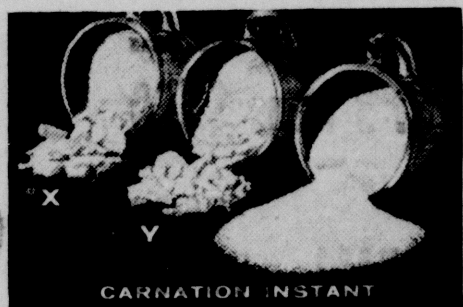

**Magic  
Crystals**

that burst into delicious  
nonfat milk!

Others claim it...only Magic Crystals can do it...prove it yourself:

**DISSOLVES INSTANTLY!**  
Photographs show powdery "Instant"  
Brand X, flaky "Instant" Brand Y and  
new Carnation Instant Magic Crystals  
poured into glasses of ice-cold water.  
Brand X floats on top of water, Brand Y  
only partly dissolves. Only new Carnation  
Instant Magic Crystals dissolve instantly  
and completely.

**CAN'T CAKE OR HARDEN!**  
Exposed to air overnight, powdery  
Brand X and flaky Brand Y caked and  
hardened. Only Carnation Magic Crystals  
do not cake or harden — do not ab-  
sorb flavor-robbing  
moisture — stay fresh  
and free-flowing from  
first to last!

**FRESH MILK FLAVOR!**  
Only Carnation brings you the true, full  
flavor of freshest pasteurized nonfat  
milk — concentrated in Magic Crystals.  
Unlike powders or flakes, exclusive  
Carnation Magic Crystals burst into  
truly delicious fresh-flavor non-  
fat milk—ready to drink  
immediately!

**All the Protein, Calcium and  
B-Vitamins of Fresh, Whole Milk!**

And you can prepare new Carnation Instant as rich as  
you wish! A single extra tablespoon of Magic Crystals  
per glass gives your family 15% more of these important  
values for strong growth, sound teeth and good digestion.  
And a richer flavor children love. Use Carnation Instant  
for drinking, over cereals, in cooking. No special recipes  
needed—just use liquid Carnation Instant in any recipe.

**REVIVAL SERVICES** will begin Sunday, Jan. 9, at the Carrier Mills Social Brethren church where Rev. Elmer Grisham, above, is pastor. Rev. Clifford Potter of Harrisburg will be the evangelist, and Leighman Walker will be in charge of the music. Services will begin each evening at 7 o'clock. Everyone is welcome.

## Color Selections A Problem For Auto Buyers

By REY W. BRUNE  
United Press Staff Correspondent  
DETROIT (AP)—Henry Ford once said "people can buy my cars in any color they want as long as it's black" and the modern-day automobile makers are finding that perhaps the old auto inventor had a good idea.

Ford made his remark when he was pressed to offer his model-T's in a variety of colors. He decided he'd stick to black.

Present-day auto makers, appealing to the feminine desire for glamour, are offering every color in the rainbow and quite a few which aren't in the rainbow. They're offering them in all sorts of two and three-tone combinations, too. But they're finding the variety of colors has its bad points.

The combination of colors plus the wide variety of options like power steering and automatic transmissions that are offered have left many auto buyers as undecided as a young boy at a candy counter.

Customers not only have a hard time deciding just what colors and what options they want on a car. But they also find it sometimes is hard to get just what they want.

Dealers are finding themselves with new cars but no one to sell them too, even though they have buyers in line. The cars in stock often aren't the right color or don't have the right options.

**Dealers Solve Problem**  
Automotive News, the trade newspaper, said some dealers are solving the problem by repainting cars to the colors desired by the customers. The paper said some dealers are suggesting that the companies start shipping cars with just the prime coat of paint and let the dealer paint to suit the customer.

Some dealers have been quick to recognize a good thing when they see it.

They are emphasizing to customers who have to wait for their cars to come from the factory that they are getting a "custom built" car. With this psychological edge on their side, some of these dealers are using dulled pencils in figuring out deals for the cars, and realizing a higher profit.

One buyer in Rochester, N. Y., sampled cars in each of the three low-priced lines of the "Big Three"—the Ford, Chevrolet and Plymouth.

## Somerset

Guests the past week of Mr. and Mrs. Raymond Oxford and sons were Mr. and Mrs. Elmer Steinborn, Mr. and Mrs. Charlie Strong of St. Louis, Mo., Mr. and Mrs. Newt Church, Mary Adams and Hazel Driskell.
